

CASE STUDIES

IT Development Center Setup/ Taxation , Book Keeping/ Incorporations And Licenses / Business Process Management/ Subsidiary, SPV Setup

Case Studies

The case studies are presented for the two Business Segments that Datapalm Operates. Each case study is classified into “industry” which the client operates in.

- **Business Process Management (BPM)**
 1. FMCG
 2. Information Technology
- **Finance and Accounts Management (F&A)**
 1. Energy
 2. Information Technology
 3. Innovation

Innovation

- **An Innovation Corporation – USA**
- A large company working in Innovation in Power Efficiency, having customers across the industries and states.

- **Problem:**
- The corporation was looking for an expert agency for helping them in ongoing compliance for Tax Filings, Book keeping, Payroll and Management Reporting for their India Captive.
- Hiring and retaining resources with all the required skills was a challenge.
- The company would carry a risk of non compliance and subsequent legal penalties and penal actions.

Innovation

(continued.....An Innovation Corporation– USA)

- **Solution:**
- Datapalm took over the complete finance operations of the company.
- Recording of the transactions in accounting software, regular tax filings, regular reporting to management, payables processing, raising client invoices, monthly provisioning and many other complex activities were taken over by Datapalm.
- The company and management now focus only on their core operations without being required to look after the F&A Operations.
- The India captive is set and running.
